Dr. Linda Burhansstipanov, MSPH, DrPH
Cherokee Nation of Oklahoma

Founder/President and Grants Director, Dr. Linda Burhansstipanov, has worked in public health since 1971, primarily with Native American issues. She taught full-time at universities for 18 years (CSULB and UCLA). She developed and implemented the Native American Cancer Research Program at the National Cancer Institute from 1989-1993. She currently is the principal investigator and subcontractor for 5 NIH grants. She has over 100 peer-reviewed publications, of which most address Native American cancer, public health and data issues.
